PROFESSIONAL EXPERIENCE

AllianceBernstein L.P., New York, NY & Nashville, TN

As a consultant and analyst with AllianceBernstein, my primary focus is to ensure proper execution of processes and procedures, update training documentation as needed, prepare and communicate metrics to board members, establish and maintain databases, and identify process improvement needs. I worked mostly independently but collaborated with numerous C level executives and colleagues and reported to the Director of the Compliance department.

Compliance Analyst, 10/2019 to Present

- Establish and help maintain databases.
- Analyze and prepare department metrics for Board Members.
- Automate outdated processes by using components offered through web applications.
- Draft documentation for training on various processes.

Consultant, 07/2019 – 10/2019

- Offered insights into the revamping of the Legal & Compliance department's applications and processes.
- Served as a middle man for the Business side and Tech team in order to establish a new bridge of data feed.
- Daily monitor and review trade requests from the Firm's employees.
- Investigate cases that result from discrepancies with trades and platform logic.
- Compile various reports to ensure amenableness with Federal Regulators.

The Goldman Sachs Group Inc. - New York, NY

Expense Processing Administrator, 10/2017 – 11/2018 (contract)

While working at Goldman Sachs, I collaborated with administrative assistants and investment bankers to reconcile client expenses, executed research and investigations, provided communication and improved processes and procedures. I worked within a team in the Finance department and reported directly to the Finance Department Manager.

- Created and designed an Expense Overview template providing management with straightforward, streamlined, and simple for improved and efficient decision making.
- Utilize Business Intelligence tools like Oracle to study data and create reports.

Fitch Learning - New York, NY

Program Support Assistant, 06/2017 – 09/2017 (contract)

As a program support assistant, I supported all onsite training, provided feedback on analysts, communicated weaknesses in program content and materials to supervisors, presented progress to supervisors using expert Excel functions, and other duties as assigned. I was the only assistant to all program instructors and reported to each one of them individually.

- Assist Instructors with administering onsite training programs for major financial institutions.
- Provide feedback on analysts in areas such as Excel, Accountability, Presentation, Focus, and Meritocracy.
- Escalated, researched, and resolved issues pertaining to trading simulations, exam portals, and curriculum.

J.P. Morgan Securities LLC - New York, NY

Senior Operations Associate, 02/2014 – 07/2016

As the Senior Operations Associate at J.P. Morgan, I was tasked with partnering with multiple departments to collaborate, identify, and resolve a wide variety of issues, presented KPI reports to vendors and senior management, review, edit, and approve various legal documents, drafted new policies and procedures as needed, and identified, assessed, and reviewed solutions for operational risks throughout the company. I reported to the VP of operations and led a team of 10 but created positive relationships and rapport with all departments.

- Successfully preserved qualifications with 44 US states by maintaining regulatory relationships, partnering with surety bond agents, and reporting data analytics.
- Scored 100% on all state regulatory license examinations by using extensive research skills, accurate database querying, and attention to detail.
- Achieved a first-rate grade, 16 months consecutively, from internal auditors on all sworn documents, metrics reporting by means of due diligence, and consistent execution of procedures. Raised the group's BBB rating four grades by synchronizing senior management's objectives with BBB prerequisites, analysis, and interpersonal skills.

EDUCATION

Columbia University, New York, NY, Engineering Coding Bootcamp - Full Stack Web Developer, 2019

PROJECT: OfficeMate

- <http://office-mate.herokuapp.com>
- officeMate is a website application survey created to match fans with their respective character from the hit TV series "The Office". Based on answers to a list of questions one will discover which character they have most in common with. Technologies used were HTML, Javascript, Express JS & Bootstrap.

PROJECT: GifTastic

- <https://keenan560.github.io/GifTastic>
- Send TV show requests to Giphy.com's API and receive ten gifs in return that shake, pause and play whenever clicked. The API also returns each gif's corresponding rating.

PROJECT: Bird Box

- <https://keenan560.github.io/Project-Bird-Box>
- A website with the purpose of helping a user find an ideal place to live based on the following parameters: Age, Desired Job Title, Marital Status, and Crime Rate. Technologies used were Bootstrap, Firebase, & jQuery.

PROJECT: Wrestlemania RPG

- <https://keenan560.github.io/unit-4-game>
- 90s WWF Wrestlemania RPG game. Choose from eight classic wrestlers and battle tournament style to their amazon theme songs. Technologies used were Bootstrap, jQuery, Javascript, HTML, CSS.

PROJECT: Bamzon

- <https://github.com/keenan560/Node.js-MySQL>
- 90s WWF Wrestlemania RPG game. Choose from eight classic wrestlers and battle tournament style to their amazon theme songs. Technologies used were Bootstrap, jQuery, Javascript, HTML, CSS.

Pennsylvania State University, University Park, PA - Bachelor of Science – Economics, 2010
